TERRITORIAL EXHIBITION.

The work on the Territorial Exhibition grounds is fast approaching completion. Mr. Williams, the contractor, is pushing the erection of the buildings most energetically. The grand stand and platform for performers were finished on Saturday. The fencing with the exception of a small portion at the west end is done, as are also both inside and outside fences of the speeding track. Long lines of stabling are rapidly going up, large additions to which, have had to be made in consequence of the number of entries being considerably greater than was anticipated, in fact the show in this class will be the finest ever seen west of Toronto. Good progress is also being made with grading and levelling of the grounds. The centre of the race course is being put into admirable order for polo, tennis, cricket and other games. A number of horses have already arrived to take part in the speeding contests at Exhibition Park as well as at the meeting of the Regina Turf Club; and are daily being exercised on the new half mile track, upon the excellence of which the highest ecomiums have been passed by the horsemen.

Dr. McEachern of the Walrond Ranch intends exhibiting two carloads of heavy draught and general purpose horses, brood mares and fillies with several stallions.

The Indian boys of the Regina Industrial School, who are themselves erecting the building for their exhibit, are getting on rapidly with their work. This will in fact be an Industrial school on a small scale in which can be seen the various classes pursuing their daily avocation, such as sewing, knitting, writing, mathematics, drawing, modelling, etc. The boys learning trades, will be at their work, harness making, shoe making, carpertering, printing, etc. The Indians of other agencies, will exhibits grains, roots, bread, butter, clothing, homemade furniture and articles of blacksmith and carpeuter work. This display will be one of the most interesting at the exhibition showing as it will, the progress made by our Indians in civilization within the last ten years.

In addition to the speeding contests already published in the Exhibition prize lists there will be a free for all trot, mile heats, three in five, purse $150, 75 per cent. for first horse, 25 per cent. for second; also a running mile dash, weight for age; maidens at time of starting allowed ten pounds, purse $125, 75 por cent. to 1st horse, 25 per cent. to 2nd.

The C.P.R. with their usual praiseworthy enterprise, are putting in a switch and platform on North Railway Street at the exhibition grounds so as to give every facility, for the unloading of live stock and other exhibits for the fair.

The most gratifying reports are coming in from all quarters, as to the number of visitors, that may be expected, not only as sight-seers, but also many intending to take part in the various sports, such as polo, cricket, tennis, football, trap shooting and other tonrnaments, while the race meeting promises to be the greatest event of the kind ever held in the North Wesi. We may now safely predict that the Territorial Exhibition will be a far greater success than the most sanguine as to the result ever anticipated.

Intending visitors need be under no apprehension of being unable to obtain accomedation, as a regular canvass town will be erected adjacent to the exhibition grounds, where in addition to sleeping accomodations every requisite necessary to the comfort and welfare of several thousand guests will be supplied. Special attention will be paid to the furnishing of tents for the exclusive use of ladies. The hotels in town are also making every preparation for the expected influx of visitors. Notably Messrs. T. K. Grigg & Co., of the Windsor Hotel, who have rented a number of rooms, besides a building, and intend also putting up a large tent close to their hotel.

The "Rural Canadian" continues to be the most practical paper for the all round farmer to read. It has made a decided "hit" in securing the sole right for Canada of "The Farmer's New Guide," a well bound and handsomely illustrated volume of 778 pp., published at $2.50 and not sold at a lower price except in connection with the "Rural." Every farmer should have the Guide and "Rural." Both sent to any address on raceipt of $2.50.

Rev. Canon Flett, P.S.I., examined our school on Monday, the first day after the vacation. Some of the pupils had never met an inspector before and did not know how to regard the situation. We believe he was pleased with the genrral condition of the school.

What is to be done about the picnic? That is the question. A union picnic is proposed.

Rumblings from amomg the clouds excites murmers from the "earth beneath." The people here long for rain and the air seems ready to respond.

Miss Tighe, who attended this school during the past quarter dietinguished herself on the occasion of the Inspector's visit, scoring for our school. Miss Tighe was a canditate at the examination for teachers certificates's.

This school is to be represented at Regina, July 29 to Aug. 7.

The Wild Flowers of Canada.

This Dominion will soon be covered with wild flowers as with a carpet. It is interesting to hear that splendid prizes are to be given to those who know the Wild Flowers of Canada by name, form and color. European and American judges of floral nature say Canadians should be so carried away with the beauty of their own native bloom as to ensure an acquaintance with the Wild Flowess of Canada by every man, woman, boy and girl in the Dominion.

In this connection the Montreal "Star" is coming in for much praise for a splendid work it is publishing, entitled "The Wild Flowers of Canada," in portfolio form, sixteen flowers in each portfolio, three hundred plates in all, natural colors and natural size, the whole forming an invaluable treasure for the library. For a limited time these valuable portfolios may be obtained from the Montreal "Star" or local newsdealers at fifteen cents each. Amazing cheap.

ACKNOWLEDGEMENT.

R. BUCKLEY, ESQ., Agent,
London & Lancashire Life Assurance Company.
Prince Albert.

DEAR SIR,—I have to acknowledge with thanks the receipt some time ago of a cheque from your Company, being amount of policy held by my late deceased son, Frank.

The fact that no premium had been paid at the time of his death nor any acceptance receipt issued by the Company goes to show the fair minded spirit of the Company towards its policy holders as I presume there was no legal and only a moral obligation binding the company to a settlement. Such liberality should commend itself to the insuring public who desire absolute security.

PETER ROBERTSON.

Prince Albert, July 10th, 1895.

The Manitoba Free Press in speaking of the Uxbridge Piano says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright pianos is thrown into the shade. The Uxbridge Piano has a continuous book rack which will be appreciated in the playing of duets; sitting down to the Piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organs manufactured by the Uxbridge company have been in use for over twenty years, and require no special description as they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Pianos made by the Uxbridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.

PRINCE ALBERT, JULY 23 1895

The elections for the Imperial Parliament are now going on in Great Britain and from all that can be gathered the Liberals have a glorious chance of being snowed under. The Conservatives are making a clean sweep and we have an idea that Home Rule with all its attendant disquietude will be relegated to some period in the very distant future. We always had an idea that the English people would never consent to anything tending to the disruption of the Empire, and we are not wrong in our calculations. At the time Mr. Gladstone brought in the Home Rule Bill the people of England and Scotland had no idea what the thing meant; but so soon as Mr. Gladstone's pet scheme was unfolded the nation underwent a revulsion of feeling with the result that Home Rule was chocked off and Mr. Gladstone's prestige went with it. He is no doubt respected as an aged statesman who has served the country for many years; but this last fad of his nearly brought the country into trouble, and which would without doubt been ten fold more acute had Home Rule been unfortunately carried.

Next Thursday is the day appointed to vote on the by-law with regard to grant the Hudson's Bay Company's grist mill exemption from taxes for a period of twenty years. We trust that there will be a good turn out of ratepayers to give the by-law a respectable majority, as we think it only just that the town should grant them this boon: It will not cost the town much and at the same time it would show an act of courtesy and good will on our part. We are advocates of fair play and we think it is and will be to the interest of the town and adjacent country that we should have two mills in this place. It is an old saying that two heads are better than one. and if there is an advantage as regards the plurality of heads, we opine that the same thing could be urged in favor of two mills. We trust therefore that the by-law will receive the hearty support of the ratepayers of the Town of Prince Albert.]

The Territorial Exhibition is certain to be a splendid success in every sense of the word, so much that every one that can afford the time and means should not fail to visit it. From all we can learn it will if not eclipse the Winnipeg Exhibition—at least equal it in every respect. Everything that can be done for the comfort and pleasure of intending visitors is being done. Refreshment tents and places for travellers to put up are provided, and even to those who bring in live stock it has been decided to furnish straw for bedding, and feed such stock free of charge. The attractions provided are too numerous to mention, they can only be seen to be appreciated.

The Argonaut crew, of Toronto, in the race of the Steward's cup at Henley. was beaten by only two yards at the end of a hot race. The result is not altogether what was hoped for. but it is good. Next to the joy of beating an opponent in a manly contest comes the pride in making an opponent work hard for his success, and this the Argonauts can justly feel.

In reply to a statement that he had gone back to Unionism, Mr. Gladstone has written a letter advising the British people to recognize the just claims of Ireland. That is direct enough, if the ground is to be taken that the G. O. M. is still a home ruler. Otherwise it is Gladstonian.

Dun's report says commercial travellers write hopefully regarding the prospects of the fall trade in Canada and are sending in very fair orders. This applies to dry goods, boots and shoes, hardware and harvesting implements. The promise everywhere is for an early return to old time commercial activity, if disturbing elements are kept out of the situation. The political tariff revolutionists must be left where they can do no harm.

There is a division in the Toronto Public School board as to whether lady teachers shall be allowed to wear bloomers when they go bicycling. The leader of the opponents of the new order is named Bell, and the ladies on the Board seem to be agreed that he should be rung for his ideas, which they hold to be of the kind vulgarly called "chestnuts." It looks as if the bloomers will bloom.

The Shamrock Club House was decorated recently with a Union Jack having a maple leaf on the fly. This is what many are suggesting should be adopted as the Canadian national ensign. If the suggestion should result in action the new banner will have been appropriately introduced as an exhibition of the national game.

The Western Law Times, published in Winnipeg, has an article deploring the decrease of litigation both here and elsewhere. It points out that last year there were 609 writs issued, in the Superior Court at Winnipeg whereas this year there were only 349 There is a serious complaint that litigation is not now entered into by business men at large, official assignees never look to the Courts for advice; and that the law now, is resorted to only by insolvent corporations and married women, parties who have nothing to lose in litigation and never pay costs if they lose. "No wonder the Bar is grumbling." Whatever the Bar may think of the matter is not much of our concern, but we do think that it is a sure sign that people are awakening to the fact that it is the height of folly to expect to get any satisfaction by seeking redress through a maze of uncertainties and legal quibbles. The Winnipeg lawyers may lament the decrease of litigation but they have themselves to blame for it. Merchants and traders and others are beginning to go to arbitrators instead of to Courts, being more profitable accompanied by less uncertainty. We think this is a sign that people are learning wisdom by hard bought experience, and we welcome the outlook.

Chatham, which celebrated its entry upon a new period of corporate existence on Dominion day, lays claim to the title of "Maple City." It is thirteenth on the list of Ontario's towns to attain the dignity of electing aldermen instead of councillors, eight having gone on the list since confederation The Ontario law requires a population of ten thousand to secure city incorporation, so that the dignity implies more than ambition. Chatham is a pleasantly situated, thriving place and will no doubt do credit to its new title.

They are looking for a crisis making session of the Japanese Parliament too The Chrysanthemum kingdom is right up in the procession with western nations.

Mr. Tarte says the story that he would return to the Conservative ranks was a joke. The Government supporters had their scare for nothing.

There are nine members of the Salisbury family or their marital connections in the new British administration. Salisbury must be a big man indeed. Some Canadian statesmen do not get that many relatives into the civil service of their country.

A conspiracy to kill the Czar has been unearthed in Russia. Six pardoned Nihilists are among the participants therein. Mercy would seem a bad investment for a Russian ruler.

In Its Worst Form

After Physicians Failed, Hood's Sarsaparilla Perfectly Cured.

Great mental agony is endured by parents who see their children suffering from diseases caused by impure blood, and for which there seems no cure. This is turned to joy when Hood's Sarsaparilla is resorted to, for it expels the foul humors from the blood, and restores the diseased skin to fresh, healthy brightness. Read the following from grateful parents:

"To C. I. Hood & Co., Lowell, Mass.:

"We think Hood's Sarsaparilla is the most valuable medicine on the market for blood and skin diseases. Our two children suffered terribly with the

Worst Form of Eczema

for two years. We had three physicians in that time, but neither of them succeeded in curing them or even in giving them a little relief. At last we tried Hood's Sarsaparilla and in a month both children were perfectly cured. We recommend

Hood's Sarsaparilla

as a standard family medicine, and would not be without it." MR. and MRS. M. M. SOLLER, 1412 2nd Avenue, Altoona, Pa.

Wednesday last was the day of the Duck Lake annual sports, and an excursion had been arranged for that day from Prince Albert by train. The number of those who took advantage of the excursion this year were noticeably less than last year, but those who did go say they enjoyed themselves and had a big time. There was a large programme of sports which were well carried out and keenly contested. Our reporter failed to put in an appearance, so that we are without an accurate list of prize winners, but from what we have gleaned, it is quite apparent that the Prince Albert sports were not in it.

Our worthy townsman, J. F. Betts, Esq., M.L.A., has in his possecsion an historical document which would be very interesting to any old pioneer of this country who has been in the service of the honorable Hudson's Bay Company. This document is a list of all the councils held by the officers of the Company in this country from the year 1830 down to 1887, with the names of all the officers who attended each council. The list is too long to be transcribed here; but we will give a brief summary of it. During the above mentioned period there were held fifiy councils at the following places:—At Norway House between 1836 and 1870 were held twenty one councils; at Carlton House, 1871 to 1883, ten councils were held; at Red River Settlement, from 1833 to 1846, eight councils; at York Factory from 1830 to 1851, four councils were held; at Upper Fort Garry from 1860 to 1867 seven councils were held; at Lower Fort Garry, in 1861, one council was held; at Prince Albert, 1883, one council was held and at Winnipeg in 1887 one council was held. These councils were presided over by the following:—Twenty three councils by Sir George Simpson. Ten by James A. Grahame, seven by Wm. McTavish, four by Eden Colville, two by D. Finlayson, three by A. G. Dallas, one by Robt. Hamilton, one by D. A. Smith, and one by Joseph Wrigley. Two of these councils were held at Norway House presided by Sir Geo. Simpson and Eden Colville in conjunction. Eden Colville was the Governor of the Company in London. The greater part of the officers who took part in these deliberations are now no more.

MELFORT MURMURS

Crops in some localities, especially South Melfort, look well and promise an average crop, but north and west there are many poor fields, and hay has improved vastly this month and a fortnight will hear the mower sing again.

The Colleston base ball team accepted the challenge from Melfort at the eleventh hour, the news only reaching here the evening of the 11th inst., so that all of the nine could not be collected. However, a team was got up and drove to Carrot River, Colleston winning easily. They played seven nnings.

Mr. Waterman and family arrived from Dakota this week, settling north.

Mr. King and family, with a car load of effects from Illinois are expected next week; give us but railway communication and we can discount Edmonton.

The government well borer has returned to Carrot River, finding water over all the farms where it was tried from 18 to 40 feet. Mr. Meyers is fortunate in securing an experienced hand as Mr. Lippett for running it.

THE RIFLE.

The fourth and last shoot in the Military Rifle League matches came off Saturday afternoon at the Ranges, and although a rainy day good scores were made, Williamson leading with the fine score of 89, while St. Denis and Dyke-Parker were close up with scores of 88 each, the team averaging 84 1-10. For the four matches the team have a score of 3,240, which we think will place them, if not first, very near it in their class. The following are Saturday's scores:—

	200	400	500	Total.
Kerr, W.,	29	32	25	86
McKay, J.,	25	28	21	74
Weeks, J. W.,	28	31	17	76

LITTLE BOOKS.—Cotton Mather said that since he had given away many little books, God had given to him many great books. Great books have their value, but little books are far more important for common use; and while students may need the great books, the people need the little ones. Busy men and women have no time for long stories. All the books of the Bible, as written, were little books. Thousands of people who cannot read large volumes would gladly read brief pointed tracts and pamphlets. Persons interested in scattering "small books on great subjects," will do well to examine the different numbers of the Anti-Infidel Library, published by H. L. HASTINGS, 47 Cornhill, Boston. Most of them are 5 or 10 cents pamphlets, in readable type, but so packed with facts that they contain as much information as one would often find in a book costing a dollar. The circulation of some of these publications has been enormous, nearly sixty tons of a single one of these little tracts having been printed. We do not often see "third million" on the title of any publication, but persons who are curious can find it by sending five cents to H. L. HASTINGS, Boston Mass., for a copy of the pamphlet "Will the Old Book Stand?" or by sending twenty-five cents for an assorted package of his Anti-Infidel tracts.

RHEUMATISM CURED IN A DAY.—South American Rheumatic Cure, for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by J.G. White & Co.

The greatest papers in Great Britain and the United States freely acknowledge the wonderful merit of the *Family Herald and Weekly Star*, Montreal. The *Family Herald* is a great newspaper and a great family paper, but it is more than that, it is one of the greatest authorities in the world on cheese, butter, general dairying, and general farming. How a progressive, up-to-date farmer can do without the *Family Herald and Weekly Star* of Montreal is hard, indeed, to understand.

RELIEF IN SIX HOURS.—Distressing Kidney and Bladder diseases relieved in six hours by the "GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by J G. White & Co.

"Dicks Blood Purifier" is the best of all the condition powders I ever used. It makes a horse thrive and feel well, improves his coat and keeps him perfectly clean in the legs, no matter how long he stands in the stable? I gave half of the first box to a gentleman who had a fine trotting stallion that had swollen in the legs, and had scratches from being out of condition, and in a few days his legs were perfectly clean, and the cracks healed rapidly.

THE CANADIAN MAGAZINE.

This monthly, one of the best in America, and which has obtained a general respect throughout the world is perhaps lighter than usual, as may befit the heat of midsummer, but it is nevertheless a most interesting number, suitable to the student, and to the man who abandons himself to the pleasure of the holiday resort, and to (to repeat a hackneyed expression) Izaac Walton's favorite pursuit. Of the thoughtful articles, "Home Revisited," light, but most entertaining —an article by C. R. W. Biggar, Q.C. and copiously illustrated, is one. The "Revival of Napoleon Worship," by J. W. Russell, is timely, and excellent in judgement and tone. An interesting story of a cholera epidemic is told by W. B. Wallace, L.L.B., under the caption of "Halifax Heroes." Hypnotism," by Geo. M. Aylesworth, M.D., is interestinfi reading. "Selfishness and Socialism," from the pen of Robert L. Simpson; is interesting reading to any studenf of the developement of woman kind. Catherine Helen Spencer, one of the best known advocates of Woman Suffrage, tells her story of a victory of adult suffrage in South Australia. Some readers, perhaps many, will not agree with her, but opinions of active and thoughtful people are valuable. "Two days in Weimar." by Ellen Sigid, is a most interesting study of several great Germans and their environments. A powerful story given in the number is that of R. F. Dixon's "By the Judgement of God." A natural story by Josette Gertrude Menard, of Massachusetts, "An Indian Lover," shows a close acquaintance with the province of Quebec. There are other contributions worthy of note. The poety, like almost all the poetry of the last twenty years, lacks strength, "In Arcadie," by J. Henderson, there is a sweetness flavoring of old French verse, which, we hope, will be revived, if somewhat in a different mode, in the beginning of the next century. The magazine is published by the Ontario Publishing Co., Ltd., Toronto, at $2.50 per annum Single copies 25 cents.
